

Define Problem Statements

(Customer Problem Statement Template)

Date	1 October 2026
Team ID	SWTID-2026-7957
Project Name	EduGenie Google Gemini Powered Learning Assistant
Maximum Marks	3 Marks

A customer problem statement describes a problem from the customer's point of view. It helps the team focus on what matters and design a solution people will want to use. The statements below capture the main problems that learners face and that EduGenie is built to solve.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A school or college student studying alone	Get a quick, accurate answer to a doubt that comes up while I study	I have to open several search results of mixed quality to find one clear answer	Textbooks and websites are not interactive and cannot respond to my exact question	Frustrated and distracted from my study flow
PS-2	A beginner meeting a new or difficult concept	Understand the concept in plain, simple language	The explanations I find are written for experts and full of jargon	Most resources do not adapt their explanation to a beginner's level	Discouraged, as if the subject is too hard for me
PS-3	A student preparing for tests or exams	Check how well I understand a topic with a few practice questions	I cannot find topic-specific questions, and writing my own takes too long	Online quiz banks are generic and give no instant feedback on my answers	Anxious and unsure about how ready I really am
PS-4	A student with long notes or passages to revise	Revise the key points quickly before an exam	I do not have time to reread pages of material	Summarizing by hand is slow and I may miss the important points	Stressed and rushed
PS-5	A self-learner starting a new skill such as SQL	Follow a clear path from beginner to advanced topics	I do not know what to learn first or which resources to trust	Online tutorials are scattered and have no timeline or single roadmap	Lost, and tempted to give up early

How EduGenie responds: PS-1 is solved by the Q&A feature, PS-2 by the Explain feature, PS-3 by the Quiz feature, PS-4 by the Summary feature and PS-5 by the Learning Path feature.
