

Communication

Date	1 October 2026
Team ID	SWTID-2026-7957
Project Name	EduGenie Google Gemini Powered Learning Assistant
Maximum Marks	1 Mark

Communication Plan:

This document describes how the five team members kept in touch with each other and with the mentor during the project, and how problems were handled.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp group / Google Meet	All 5 members	Share the day's tasks, progress and blockers
2	Progress Update	Weekly	Google Meet	All 5 members	Review finished tasks and plan the next sprint
3	Issue / Bug Discussion	As needed	WhatsApp / GitHub Issues	Developers involved	Fix errors, API problems and setup issues quickly
4	Mentor Review	Bi-weekly	Google Meet	Team leader and mentor	Show progress and collect feedback
5	Final Demo Rehearsal	Once	Google Meet / in person	All 5 members	Practise the live demo and timing
6	Documentation Review	Once	Google Docs / WhatsApp	All 5 members	Check all phase documents before submission

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	PowerShell blocked the virtual environment from activating on Windows.	Allowed scripts for the terminal session with Set-ExecutionPolicy (Process scope) and activated the environment.
2	The Gemini API key was first typed into .env.example and then exposed in a screenshot.	Moved the key into .env (kept out of Git), created a new key and deleted the old one.
3	Requests failed with a 404 error because Google had retired the originally planned Gemini 1.5 Pro and 2.5 Flash models for new keys.	Listed the models available to the key and made the model name a setting (GEMINI_MODEL) so it can be changed without touching code.
4	Commands failed because the terminal was one folder above the project files.	Moved into the inner EduGenie folder (cd EduGenie) before installing and running.
